# Shijiazhuang Survey

Shijiazhuang City, with a total area of 158,000 square kilometers, has 8 districts, 11 counties, 3 county-level cities (including Xinji City) and 1 state-level high-tech industrial development zone, 1 state-level economic and technological development zone, 1 state-level integrated bonded zone, with a population of 11.0312 million. Among them, the urban area is 2240 square kilometers with a population of 506.56 million. In 2019, the city's gross domestic product (GDP) reached 580.99 billion yuan, an increase of 6.7%; total fiscal revenue reached 116.09 billion yuan, a year-on-year increase of 7.9%; general public budget revenue reached

56.91 billion yuan, a year-on-year increase of about 9.5% ; fixed asset investment increased 6.2% on year-on-year basis; industrial value added for enterprises above designated sizes increased 1.3% on year-on-year basis; high-tech industry value added above designated sizes increased 8.8% on year-on-year basis. Shijiazhuang, the capital of Hebei Province, has unique conditions in politics, economy, culture, science and technology, finance and is an investment hot land with business opportunities and vitality. First, it has a long history. There are six United Nations-recognized "millennium ancient counties", the Chinese human ancestor Fu Xi lived in Xinle City and Zhengding, together with Beijing, Baoding were called "three key northern towns." Second, it has red gene inheritance. Xibaipo, the revolutionary holy site

is the birthplace of "two must", starting point of "entry to Beijing for exam" for the Party Central Committee, and is where new China comes from. Third, it has the concern and attention of General Secretary. Zhengding, as the "starting place of politics" of General Secretary Xi Jinping, has been affectionately hailed as the "second hometown" by the General Secretary, and is one of the places where Xi Jinping idea of socialism with Chinese characteristics in new era has sprouted and formed, and the General Secretary has left us valuable ideological wealth, spiritual wealth and practical achievements in Zhengding. Fourth, it has complete urban functions. It has successfully created national civilized city, entered into the "subway era", built a number of functional venues, urban complexes, commercial blocks, the city's construction management level

achieved a historic leap. Fifth, it has a superior location advantage. Known as the "North-South pass, Yan Jin throat", it is 260 kilometers from the capital Beijing, 170 kilometers from Xiong'an New Area. High-speed railways, expressways radiate in all directions, forming a "one-hour traffic circle" with Beijing, Tianjin and other surrounding cities. Zhengding International Airport has opened 137 international and domestic routes, reaching 86 cities. An efficient and convenient three-dimensional transportation system takes shape. Sixth, it has a solid industrial foundation. The proportion of three industries is 7.7:31.5:60.7, the industry categories are relatively complete, colleges, universities and scientific research institutions are densely located (including 49 universities, 54th and 13th Research Institutes of China Electronic

Science and Technology Corporation), the strength of innovation is strong. Seventh, it has a rare opportunity for development. General Secretary Xi Jinping has a good understanding and deep love for Hebei and Shijiazhuang. The key strategies of Beijing–Tianjin–Hebei Coordinated Development, "Belt and Road" Initiative, planning and construction of Xiong'an New Area by General Secretary personally bring all-round, deep-seated, historic opportunities for Shijiazhuang development. Hebei Provincial Committee and Provincial Government clearly put forward that they will support the construction and development of the provincial capital with the efforts of the province, which also provides a strong impetus for the development of Shijiazhuang.

---

### Cylinder Oven Scone

---

The oven scone is one of the special snacks in Beijing–Tianjin–Hebei area. Mainly popular in Hebei region, it is represented by Shijiazhuang area’s cylinder oven scones. With the cylinder lying horizontally, the scone is pasted in the inner wall. The outer side has a mild temperature and baking is done inside, which is its unique method of making. Cylinder oven scone, round drum-shaped, colored yellow, delicious taste, delicious crisps, no flavor, is a favorite food for visitors.

---

### Golden-haired Lion Fish

---

Golden-haired lion fish is a traditional dish in Shijiazhuang and belongs to the Ji cuisine family. Golden-haired lion fish uses carp as the main material. After processing and decorating, the carp is fried. It looks like a lion, sweet and sour. It appeared in the early days of the Republic of China and was first created by Yuan Qingfang, a famous chef at a Chinese restaurant in Shijiazhuang City. Because the dish is golden yellow, shaped like a lion, hence the name comes.

---

## Jinfeng Braised Chicken

---

Jinfeng braised chicken first appeared in 1908. It inherited the traditional craft of China's pickled chicken and brine cooked chicken, with modern technology and a hundred-year secret recipe combined. Its appearance is complete and beautiful, its color is golden yellow and red, its meat is soft and tender. It wins the love of vast number of consumers. Renowned in the domestic market, it has won many honorary titles such as the time-honored brand, provincial intangible cultural heritage.

---

## Ma's Halogen Chicken

with Zhejiang Jinhua ham, Beijing Su's fork meat, Nanjing duck and other food names, was among the country's 33 high-quality products. It is yellow and red, the color is bright. The chicken skin is shiny and flat, without broken skin, peeling and teeth-plugging, greasy taste. Both the old and the young like it.

---

## Song's Eight Bowls

---

Zhengding eight bowls are the local snack with the oldest tradition and the most abundant content, which serve as an indispensable set of dishes during weddings, major festivals to entertain distinguished guests. This skill evolved through history and war, and it was not until the Tang Dynasty that it was basically stereotyped and became widely popular. Eight bowls contain four meat dishes and four vegetable dishes. On the occasions of great events, major holidays, or to entertain distinguished guests, eight bowls are the first choice and the last course of dishes. It's not only a kind of hospitality, but also a traditional folk customs. In Zhengding, Song's eight bowls are the most popular.

---

## Red Star Bun

---

Red star bun is famous for the following: small and delicate, white color, thin skin and enough filling, soft, fragrance but not greasy. The reason why it is delicious is because its ingredients selection, quotas and way of rolling have unique techniques.
